To Mississippi Textiles Corporation:

Insituform Technologies, Inc. (ITI) hereby certifies that the CIPP liners being manufactured under the MTube label for Mississippi Textiles Corporation (MTC) are of identical physical and chemical composition as the Insitutube manufactured by the ITI facility in Batesville, Mississippi. The only difference between MTube CIPP liners and Insitutube CIPP liners is the ink jet printed label. Furthermore, Insituform Technologies, Inc certifies that the materials used in the manufacturing of MTube for MTC have been tested and meet the CIPP chemical resistance requirements of the Greenbook "Pickle Jar Test". The testing was conducted using the same resin and liner materials that were tested and approved by the City of Los Angeles, Department of General Services, Lab No. 98-514-2, reported on August 22, 1997. Copies of the test results are attached.

INSITUFORM TECHNOLOGIES, INC.
